----------	--	----------

1 <2011-05-04 Wed> Lecture 17

- More on threaded code
 - The definition of `WHILE` in the `threaded.scm` file
- The Duff Device
 - Coroutines in C
 - Recursion doesn't work
- Back to functional programming
 - Mapping functions
 - * Map in LISP, Scheme
 - Map in Interlisp
 - Map with index
 - * `andmap`, `ormap`
 - * Filter
 - * Partitions
 - * Cross products

- Streams
 - * Finite & infinite
 - * Mapping over streams
